

A fire, hack, power failure or extreme weather event?

What to do? Be aware that you are the first responder!

A fire, hack, long lasting power failure or extreme weather event? You probably prefer not to think about it, but an emergency situation can also occur in your student house. How can you prevent it and what do you need to do when something does happen? With these and other tips you can prepare yourselves. And, one more tip: discuss it with your housemates.

Prepare yourselves, check:

How do I receive alerts?

In case of an emergency situation in your neighborhood, you will receive a text message from NL-Alert which says what you need to do. Check whether you receive NL-Alerts: settings > messages > emergency alerts.
